OVERVIEWDOCUMENTATION

Real-time integration between Splunk Enterprise and relational databases—now with improved access control and support for IBM DB2 and SAP Sybase.

Splunk DB Connect delivers reliable, scalable, real-time integration between Splunk Enterprise and relational databases. Integrate structured data from relational databases with data in Splunk Enterprise to drive deeper levels of analysis and operational intelligence.

\*\*DB Connect 11.4 or lower is not Splunk 6.2 compatible. Version 11.5 should be used with Splunk 6.2. \*\*
